

## MAYOR GAYNOR GIVES GOOD ADVICE

Lays Down Two Broad Rules for  
Guidance of Police Magistrates  
in Greater New York.

CONVICT NO ONE UNHEARD.

Should Never be Swayed by Political  
Influence—Be Not Elated  
With Power.

New York, March 10.—Mayor Gaynor has laid down two broad rules for the police magistrates in Greater New York. First, that a woman of the street arrested for soliciting should not be discharged merely because the policeman did not hear what she said; second, that it does not necessarily require a whisky expert's testimony to convict a liquor dealer of Sunday selling.

These views are expressed in a letter to James J. Harris, secretary of the Kings County Bar association, whom the mayor has named to succeed Henry J. Furlong, the Brooklyn magistrate recently convicted of petty graft. The letter in part follows:

"Make a resolution at the time you are sworn in never to allow yourself to be moved by political influence, or any improper interference. Be not elated with your powers, which are very great and apt to turn one's head. Do not convict anyone unheard. See to it, on the other hand, that the arrested persons are not discharged when they should be held. If an officer sees a woman in the street ogling men after men, it is deplorable to see a magistrate discharge her on the ground that as the policeman did not hear what she said to the men, there was no evidence that she solicited."

Taking up the Sunday selling question, the mayor said that the serving of a drink of whisky is an admission by the defendant that it was whisky, and that a magistrate should act accordingly, rather than dismiss cases for lack of evidence.

ORDERS FOR TEN  
THOUSAND STEEL CARS

Pittsburg, March 10.—Orders for 10,000 steel cars of all classes, approximating in cost \$12,000,000 have been placed, according to an announcement here, and within 10 days these orders will have been apportioned to the Pittsburg plants for execution. One hundred and twenty thousand tons of steel will be required and enough air brakes, wheels and other accessories to keep the mills busy many months.

MOUNTING SEARCHLIGHT  
AT FORT ROSECRANS

San Diego, Cal., March 10.—A 60-inch searchlight, the largest size used in American fortifications, is now being installed on the ocean side of Fort Rosecrans on Point Loma.

It can pick up a vessel over 30 miles at sea. A 20-inch search light is also being installed at Fort Pio Pico on North Island, opposite Fort Rosecrans. The lights are included in the newly adopted plans of the coast defense board.

LEGISLATIVE NEEDS OF  
TERRITORY OF ALASKA

Seattle, Wash., March 10.—Gov. Walter E. Clark of Alaska arrived in Seattle on the steamship Cottage City from Juneau yesterday on his way to Washington to take up with Congress the legislative needs of the northern territory. Alaska's fisheries, the securing of surveys by the forest commission and a governmental inquiry into the territory's natural resources, with the object of securing working, are matters that will be taken up before Congress by Gov. Clark.

"I have lately made several trips through southeastern Alaska," said Mr. Clark, "and secured much first hand information as to the particular needs of the sections visited. One of the facts that impressed me was the necessity of putting timber surveys in closer touch with the people. Practically all of the best timber in Alaska is now in reserve. Residents are allowed to cut such timber as they may need upon payment of a stumpage charge, but only after their selections of timber shall have been approved by a surveyor."

"In too many cases this latter provi-

## ECZEMA TWENTY YEARS CURED BY AN OIL

No matter if you have suffered for 20 years or 20 years, we as druggists, know that your itch can be cured in one day, and that sooner or later—perhaps very soon—your skin will be as clean and pure as ever.

Wash your skin with a simple compound, the mild, soothing oil of wintergreen, thymol, glycerine compound known as D. D. D. Prescription.

The first day, the first night of restful sleep will prove to you that we make no foolish exaggerated claims. Eczema sufferers must recognize that we certainly would not make such claims, if within a few minutes after trying the remedy you could prove us wrong; we KNOW the itch is allayed at once.

While we have always sold D. D. D. Prescription at \$1.00 a bottle, we do feel that everybody ought to be convinced at once. So we have arranged with the D. D. D. Laboratories of Chicago for a special offer—for the present—a trial size bottle at only 25 cents (for those who have never tried the remedy.)

"The people of Alaska generally are taking a keen interest in the progress of the coal lands inquiry, and are desirous of having some settlement reached without delay, irrespective of the merit of the present controversy. With the millions of tons of coal lying in Alaska's fields, they are eager to see matters so shape themselves that this coal can be mined and used in the territory."

## UNIVERSITY NEWS

President Pritchett, representing the Carnegie Teachers' Fund, will visit the university soon to investigate its eligibility to participate in the benefits promised to veteran instructors. Data is now being collected by Miss Jeanne Hume, university registrar, to present to President Pritchett.

Prof. William M. Stewart has returned from Moul, where he took part in the county teachers' convention. He reports the teachers down there are receiving the highest salaries of any in the state, and that the schools and the school system there will compare with any in Utah.

Prof. H. R. Briggs will deliver a lecture this evening at the A. P. frat. house before the Scribblers' club.

The street railway company will be petitioned to extend the hour of accepting student tickets to 6 p. m., as many of the students are frequently detained with laboratory work until that hour.

Preparations are now in progress for the preliminary tryout for the senior division of the extemporaneous speaking class, Friday afternoon having been designated for the ordeal.

Another lively clash occurred yesterday between the freshmen and soph.

The freshmen built a large kite with their class number and attempted to fly it near the campus. The sophs made a rush, and a fight occurred, but the sophs succeeded in cutting the kite string, and away soared the objectionable numerals.

This afternoon the students' executive board will meet to consider some plan whereby the students themselves may look after the general discipline of the students while in and around the campus. The faculty has recommended this action, believing that a special discipline committee composed of the students themselves, chosen by the students, may work advantageously.

## LITTLE LOVE FOR DOGS.

Grocers Think the Beasts Should Stay Out of Stores.

At Wednesday evening's meeting of the Retail Grocers' association, the presence of dogs in the shops and stores was emphatically deprecated, and sundry and diverse means were suggested as the best way to keep them out. Mrs. P. N. Cook for the Women's club, pleaded for cleanliness in all the stores, and there was some lively debate on a proposition to remove the \$50 per annum license for pedlars. The sense of the meeting was that the license should be retained. The idea of a sweeping broad in paper was strongly ad-

vocated, and the association was of the opinion that all foodstuffs exposed for sale should be kept in clean surroundings and protected from germ breeding insects.

The civic committee of the Federation of Women's clubs reported Wednesday that the following additional grocers had expressed a willingness to conform to the doctrine of the clean food ordinance: United Grocery com-

pany, Dicksons, Marriott, Thomas McIntyre, H. H. Plimack, J. W. Donkin, Charles L. Jackson, W. P. Mortensen, Success Grocery, J. B. Evans, H. P. Nielsen and H. Phillips.
